

Privacy Policy

Soft Classic Rock.com respects the privacy of visitors to our site. Please read this Privacy Policy carefully so that you understand our privacy practices for this California 101 site. Questions regarding privacy issues should be directed to Soft Classic Rock.com at contact@softclassicrock.com.

Children should always get permission from their parents before sending any information about themselves (such as their names, email addresses, and phone numbers) over the Internet, to us or to anyone else. We won't knowingly allow anyone under 13 to provide any other personally identifying information.

The information gathered by Soft Classic Rock.com on this site falls into two categories: (1) information voluntarily supplied by visitors to our site when they request information about Soft Classic Rock.com, and (2) non personally-identifiable information about our visitors's connection to the Internet collected by our servers.

Our site allows visitors to submit contact information in order to be added to or deleted from our mailing list, and to request additional information. When visitors submit such information to Soft Classic Rock.com through this site, Soft Classic Rock.com will use this information only to provide the requested information and services. Individuals within Soft Classic Rock.com who have a need to view the information will have access to the information submitted by visitors to this site.

In addition, our web servers automatically collect limited information about your computer's connection to the Internet, including your IP address, when you visit our sites. (Your IP address is a number that lets computers attached to the Internet know where to send you data -- such as the web pages you view.) Your IP address does not identify you personally to us. We use this information to deliver our web pages to you upon request, to measure traffic within our site, and to tailor specific information to certain general classes of IP addresses.

All information gathered on this site is encrypted for storage within a Soft Classic Rock.com-controlled database. However, as effective as encryption technology is, no security system is impenetrable. We cannot guarantee the security of our database, nor can we guarantee that information you supply won't be intercepted while being transmitted to us over the Internet.

We may occasionally release information about our visitors when release is appropriate to comply with law, to enforce our Visitor Agreement, or to protect the rights, property or safety of visitors to our site, the public, or Soft Classic Rock.com. As our business grows, we may buy or sell various assets. In the unlikely event that Soft Classic Rock.com, the bulk of our assets or our site is acquired by another company, information relating to our visitors would be among the transferred assets.

A final note: The Web is an evolving medium. If we need to change our privacy policy at some point in the future, we'll post the changes before they take effect. By visiting our site, you agree that your visit, and any dispute over our privacy practices, is governed by this Privacy Policy and our Visitor Agreement.
